

***Digital Medicine*—Call for Papers**

Digital Medicine is an open-access, peer-reviewed journal academically supported by International Society of Digital Medicine (ISDM), Institute of Digital Medicine of the Third Military Medical University and quarterly published by Wolters Kluwer and Spring Media Publishing. It aims to establish a platform, so that scientists in this field will enjoy more convenient academic communication by reading and writing for this journal.

The journal covers technical and clinical studies related to health, ethical and social issues in the field of digital medicine (topics include the basic and clinical research on digital medicine, development of digital medical equipments, digital hospital construction, construction of regional digital medical network, and remote diagnosis and treatment), and it can also cover computer science, mathematics, informatics and mechanical engineering. Articles with clinical interest and implications will be given preference.

Medical physicians, researchers, administrators, teachers, and students specializing in this field are the primary audience for the journal. Researchers who work in related science fields are also our target readers.

The Editorial Board members have a wide range of interests and a balanced composition between basic and applied research members. Shaoxiang Zhang, Ph.D., M.D., designed and founded the journal of *Digital Medicine* as editor-in-chief. He is the principal investigator of the Chinese Visible Human Project, the Chairman of the Chinese Society for Anatomical Sciences, the Chairman of the Chinese Society of Digital Medicine, and also the President of ISDM. Associate editors-in-chief include Lanjuan Li, a member of the Chinese Academy of Engineering; Dr. Joseph Alpert, editor-in-chief of *The American Journal of Medicine* and a professor of medicine at the University of Arizona Sarver Heart Center; Dr. Stephen Carmichael, editor-in-chief of *Clinical Anatomy* and the Chairman of Anatomy at Mayo Clinic School of Medicine, etc. Altogether, there are over 40 Editorial Board members from around the world. Their countries include USA, Canada, Germany, the Netherlands, Switzerland, New Zealand, South Korea, etc.

The journal's full text is available online at <http://www.digitmedicine.com>. The journal allows free access to its content and permits authors to self-archive the final accepted version of articles on any OAI-compliant institutional / subject-based repository. The journal does not charge for submission, processing or publication of manuscripts and even for color

reproduction of photographs.

Authors are cordially invited to submit papers for the upcoming issue. You may easily submit your paper via the online system (<http://www.journalonweb.com/digm>).

Looking forward for your valuable response.

Shaoxiang Zhang, Ph.D., M.D., Professor, Editor-in-Chief
